- *Healthy joint and ligament support\**
- *Promotes healthy skin integrity and function\**
- *Supports low back strength and health\**
- *Excellent pain relief support\**
- *Supports healthy digestion\**
- *Extraordinary support for de-granulation of the lymphatic system\**

### Thousands of Years of Use

Devil's claw (*Harpagophytum procumbens*), a native to southern Africa, is named for the miniature hooks that cover its fruit. For thousands of years, the Khoisan peoples of the Kalahari Desert have used devil's claw root in herbal remedies to help relieve pain and for pregnancy as well as for skin concerns. Since its introduction to Europe from Africa in the early 1900s, the dried roots have been used to boost appetite, promote stomach health and to reduce pain, especially in bone and joint concerns.

### How does Devil's Claw work?

Devil's claw contains iridoid glycosides, substances believed to have strong, health-promoting effects. Harpagoside (one type of iridoid) is highly concentrated in devil's claw root and has been shown in some laboratory studies to have potent pain-relieving and joint-supporting properties.

#### What is "nanized" devil's claw?

The word "nano" means very, very small. A "nanized" tincture of devil's claw contains premier quality devil's claw that has been "nanized" or pre-digested into very, very small particles which makes them extremely bio-available. Even those with poor digestion can rapidly absorb the "nanized" devil's claw. **Devil's Claw Nano-Detox** really demonstrates the power of the old saying, it's not what you take, but what you absorb that makes the difference.

### The Nanization Process

**Devil's Claw Nano-Detox** unleashes all of devil's claw powerful benefits, not just for those with good digestion and absorption, but literally for everyone. It is the first nutraceutical preparation designed to assure absorption of the full spectrum of devil's claw's awesome glycosides.

Using only premier quality, "beyond organic" devil's claw that has been "nanized" (i.e. pre-digested into extremely small particles), **Devil's Claw Nano-Detox** can be rapidly absorbed into the blood stream where it immediately goes to work. Even those with poor digestion can enjoy the full benefits of **Devil's Claw Nano-Detox's** highly bio-available nutrients. No other form of devil's claw can offer such a quantum boost in phytonutrient availability and quality.
