Your source for the 5 Steps to Great Health

Diabetics Risk Heart Attacks, Strokes, Kidney Failure, Blindness, Nerve Damage, Burning In The Extremities, Gangrene, Amputations, and Infections.

Would You Like To Eliminate All Of These Risks And The Worry From Having To Take Diabetic Medication And The Stress Of Having To Test Your Blood Sugar All The Time?

Lower Your Blood Sugar By 50 Points In 30 Days – Or It's FREE!

Read on for astonishing clinical findings for Type 1 and Type 2 Diabetes. Proven Breakthrough really Works.

When I was a teenager I watched my Grandmother suffer for years from diabetes and its complications. She drank and smoked for years ate candy bars and bad foods and finally got diabetes. Over the course of perhaps 10 or more miserable years she suffered from 3 strokes, loss of speech, loss of motor control of her body, gangrene, leg amputation and finally death.

All of this suffering to herself and her family was completely unnecessary had she only taken an interest in her health and nutrition. Today we have more answers than ever to nutritionally intervene and help your body heal.

Whether you just found out or you've known for years that you have diabetes, you're concerned and for good reason. **Diabetes is the third leading cause of death in the United States after heart disease and cancer.** It is a disease in which the body does not produce or properly use insulin necessary for the body to metabolize glucose (sugar). The glucose stays in your blood instead and its level then gets too high, causing you to have diabetes.

Diabetes affects an estimated 18.2 million people in the United States, six million of whom must take shots of insulin daily, with another 15 million not yet diagnosed with an economic cost of over \$100 billion yearly. **Globally, the statistics are staggering.**

Your first stop is usually to your family doctor for instruction on lifestyle changes, medications, and daily blood tests for life since there is no cure, only treatments to control it and to **delay its devastating affects!**

Current medications can have **serious side-effects** including nausea, diarrhea, skin rash, weight gain, respiratory infections, liver damage, and headaches.

People with diabetes -- whether Type 1 or 2 -- have an increased risk of severe complications if the disease goes undiagnosed and untreated, or if it is poorly managed. The high blood glucose levels that occur make it easier for blockages to form in the body's arteries and for nerve damage, causing numbness and tingling, especially in the legs and feet. Most people with diabetes have health problems such as high blood pressure and cholesterol that increase one's risk of heart disease and stroke. In fact 65% of diabetics die from it. Signs of diabetes are:

Some of the main causes of diabetes are eating bleached white flour products, white sugar, glucose sweetened foods or drinks, high alcohol consumption, pasteurized milk, Nutrasweet (aspartame), vaccinations and possibly root canal infections to name a few. The bleaching of flour converts fragments of wheat germ oil into alloxan, a potent toxin that has been used to induce diabetes in lab rats. White sugar supplies glucose in its naked form without nutrients and the net effect is that lab rats get diabetes when fed this white poison. Alcohol, pasteurized milk and vaccinations have been blamed as causal agents in diabetes.

The Solution: Natures Answer To Diabetes Package

Starting with Diamaxol™, along with a healthy lifestyle, has been shown to be 99% effective for Type 2 and 64% effective for Type 1 at reversing the root cause of diabetes, based on clinical studies and over two years of use. That's a strong claim, but we have thousands of success cases and a "Lowering your blood sugar by 50 points in 30 days" guarantee, no questions asked, to back it up. You have nothing to lose but everything to gain. You can eliminate diabetes from your life without the use of drugs, doctors, or surgery.

Diamaxol™ contains all-natural ingredients that are essential in making it gentle and effective. It contains no chemically generated compounds, fillers, or artificial additives and unlike pharmaceutical medicines, does not require a prescription and is **regarded as safe with no side-effects**. Diamaxol™ correctly solves the cause of the problem, the first time, and not merely masks the symptoms. Diamaxol™, required years of research, clinical studies and its scientists, whose staff combined has provided quality healthcare solutions for over 30 years.

How it works

Physicians today are prescribing several medications used to treat diabetes. Medications never have and cannot cure diabetes and they **all** have their side effects. All diabetic medicines can be categorized into the following classes:

INSULIN – lowers blood glucose levels. There are many brands and types on the market that differ based on when it begins to work, when it works hardest, and the duration of time it works. Side effects include low blood glucose level, weight gain, and allergic reactions.

SULFONYLUREA – These drugs cause the pancreas to make more insulin. Some brands are Glucotrol, Micronase, and DiaBeta. Side effects include low blood glucose (hypoglycemia), weight gain, rash, headaches, hypersensitivity reactions and nausea. Sulfonylureas are potentially teratogenic (cause birth defects) and cannot be used in pregnancy or in patients who intend to get pregnant.

BIGUANIDE – These drugs reduce the amount of glucose that is made by the liver and helps the body better use insulin. Some brands are Glucophage and Metformin. Side effects include nausea, diarrhea, gas, loss of appetite, and metallic taste in mouth. It also increases the risk of lactic acidosis. It should not be used by persons who are at risk of heart failure, kidney disorders, lung disease and liver disease.

THIAZOLIDINEDIONE – These drugs help the body cells better use insulin and reduce the amount of glucose that is made by the liver. Brands include Actos and Avandia. Some known side effects are liver damage, nausea/vomiting, abdominal pain, and fluid retention which can aggravate heart failure.

MEGLITINIDE – stimulates pancreas to release more insulin and act more quickly. Some brands are Prandin and Starlix. Some side effects are low blood glucose and upset stomach.

As you can see, there are no prescription drugs without serious side effects. Diabeticine™ is clinically proven to have **no side effects** and is guaranteed to be 100% effective.

The key to Diamaxol™ effectiveness lies in its secret blend of botanical ingredients combined from **over four years** of laboratory trials and immuno-pharmacological research. Every ingredient plays its particular role and the botanical blend as a whole represents a powerful tool to normalize your blood sugar levels. Diamaxol™ is a breakthrough in scientific research and works at the cellular level in stages as follows:

- 1. Reduces blood sugar levels:** Diamaxol™ interferes with glucose absorption from the intestine and prevents adrenal hormones from stimulating the liver to produce glucose, both of which directly reduce blood sugar levels.
- 2. Eliminates insulin resistance:** Diamaxol™ repairs cell receptors to better recognize insulin, which virtually eliminates insulin resistance. Insulin resistance is the root cause of Type 2 diabetes. Cells are now much more successful at metabolizing glucose which further normalizes blood sugar levels.
- 3. Promotes insulin production:** Diamaxol™ stimulates the increased production of an organic compound that is naturally produced by the body. If you are Type 2, it is quickly converted to insulin by the pancreas for increased insulin output. If you are Type 1, this conversion is not possible due to destroyed beta cells. Instead, this organic compound remains and functions just like insulin as a natural alternative. ***With increased production over time, stress on the pancreas is relieved which allows it to naturally heal and develop new beta cells with a different signature. These new beta cells are not susceptible to the body's immune system malfunction since they cannot be targeted. Critical to this healing process is a healthy lifestyle and proper nutrition, which we detail further as guidelines with your shipment of Diamaxol™.***

We are so sure that Diamaxol™ will work for you that we offer a "Lower your blood sugar by 50 Points in 30 Days" guarantee. No questions asked, no hassles, no one comes even close. Diamaxol™ really works.

Testimonials

"Taking care of my condition has been such a huge part of my life and sometimes it has been all consuming. Diabeticine has been all I had hoped for and more....
No more needles, No more Shots, No more doctor visits, and I can live a normal life again.
I Can't Thank You ENOUGH!!"

Jill Garard, Canton, OH

"With DIAMAXOL we are re-feeding the cells and literally growing a whole new human!"

-Dr. Ranya Alex, M.D., Ph.D.

Kia Vang of Minneapolis, MN was diagnosed over 4 years ago. Since then she's developed other complications including high blood pressure and fatigue, plus the potent drugs she's taking gives her nausea on most days. "The caring of Kia's children is the most important thing in her life and it just killed her when she couldn't do every thing she used to do" said Tony, her brother. "She seems to be always tired and irritable and controlling her condition seems to be a never ending job. It troubled me to think of her health a few years from now since I know her condition will not get better. That's when I went to the internet to find out what can be done and discovered Diamaxol. Within two weeks, Kia's doctor was amazed and reduced

her medication. Five months later, she's no longer taking any medication and her life is back on track. Thank you so much for giving my sister back."

- Kia Vang of Minneapolis, MN

Diamaxol™, is covered under Cocoon Nutrition's "50 points in 30 days" money back guarantee. Simply return the unused portion for a 100% refund. No questions asked, no fine print!

Other Beneficial Supplements For Diabetes

[Nano-cal](#) is a new product that supplies 10% Calcium Oxide, 45% Calcium Gluconate and 45% Magnesium Gluconate. The Calcium oxide is unique to this product and is able to become blood plasma calcium immediately upon absorption. All forms of calcium salts that you could consume in food or supplements attempt are at best 10% absorbable. Compared to Nano Cal which is supplying Calcium oxide which is 80% absorbable. Most supplemental or food forms of calcium are largely excreted in the urine so that little if any calcium is absorbed by the body. Nano Cal's Calcium oxide is unlike any other and is so effectively absorbed that customers report the beginning of reversing gum recession in only 3 weeks. Gum recession is evidence of Osteoporosis, so to reverse gum recession is evidence of reversing osteoporosis. Practitioners report the beginning of reversing of osteopenia using Nano Cal with their Clients. These osteopenia reports are unconfirmed so I am doing a study over the next 3-6 months to see if Nano Cal is indeed the most effective answer to osteoporosis. It is vital that our Pharmaceutical Grade Cod Liver Oil or our X-Factor Butter be taken daily to assist in the absorption of the Calcium and Magnesium in the Nano Cal. The vitamins A & D supplied by these animal fats are key to Calcium absorption and to the creation of new bone tissue.

Nano Cal is 200 times stronger than Coral Calcium at alkalizing the body.

The calcium oxide in Nano Cal will alkalize your body more quickly than coral calcium. It can raise the pH of water from 7 to 10 with only a tiny dose. Coral cannot raise it beyond 8.1pH. This makes Nano Cal over 200 times stronger than Coral Calcium at alkalizing the body. Plus this Nano Cal creates a negative charge to your water. This means that it gives you electrons, which is what quenches free radicals.

Nano Cal can increase sugar absorption and induce deeper sleep.

Another major benefit to Nano Cal it can cause you to radically increase you sugar absorption. One reason it does this is that it raises oxygen levels as it raises pH to a more alkaline state. The increased oxygen level causes your cells to much more easily absorb sugar and eliminate wastes. This product can also relax you at night and help to induce deep sleep.

Measuring your Saliva pH will show you your body pH

Nearly everyone whether vegetarian or omnivorous (eats animal proteins) is running chronically acidic. This acidity will keep your body in a chronic state of alarm to steal calcium out of the bones and cartilage of the joints and discs to meet the critical pH needs of the blood. This is a silent activity to which you have no awareness that it is occurring. Being too acidic leads to osteoporosis, arthritis, obesity, gastrointestinal problems, diabetes, high blood pressure and cancer. Being a silent activity you will not be aware until it is too late. When the diagnosis of cancer occurs how many times have you heard people recently diagnosed with cancer say; "I felt fine I had no symptoms of disease"? Well being a Health care practitioner I've heard it many times. Well there is something you can do to be aware of your pH and act to prevent getting the diseases of modern living; that is to test your saliva pH morning and evening before dinner. If your below 7.0 you are acidic. We sell the pH paper for \$10 here at Cocoon Nutrition.

An equally important and synergist product to take with Diamaxol is our [Sugar Burner](#). Sugar Burner supplies angstrom sized electron enhanced vanadium, chromium, iodine, rubidium and other trace minerals. These minerals combine to cause your cells to uptake sugar more readily. The net effect of this is that when more sugar is absorbed then less is in the surrounding tissues or bloodstream being converted into fat. We have customers now who have only taken sugar burner and have lost 18 and 10 pounds in 45 days. The Rubidium in Sugar burner is the most alkaline element on the periodic table of elements. It readily passes through the cell walls to alkalize the inside of the cell. As you may recall raising the pH inside the cell increases the oxygen level inside the cell. This oxygen then is what enables

the cell to convert the absorbed sugar into fuel. Taking Sugar Burner also reduces ones sugar or carbohydrate craving by 90% or more in only one to two weeks. The minerals in Sugar Burner are the result of a unique science and are the reason they work. Most mineral products are too large, do not have electron enhancement and in general do not absorb or work anywhere near the degree minerals can work in the body. Taking Sugar Burner with Diamaxol should increase your results markedly.

[Pharmaceutical Grade Cod Liver Oil](#) plays a therapeutic role in helping to regulate blood sugar and healthy blood vessel system plus it also plays a vital role in calcium absorption. "There were epidemiological studies on the Greenland Eskimos, a population of people that eat mainly whale blubber. In a study, researchers had 12 overweight men and women, aged 40 to 70, consume 1.8 grams of DHA at breakfast for 12 weeks. While none of the study participants had full-blown diabetes, they all suffered from insulin resistance -- a pre-diabetic condition in which the body fails to efficiently respond to insulin. Using blood tests taken at the start and end of the study, the researchers assessed changes in each person's insulin resistance. They saw a change in insulin sensitivity after 12 weeks of DHA supplementation as found in Cod Liver Oil. A full 70% of the study participants showed an improvement in insulin-related function, and in 50% it was a clinically significant change. Annual Experimental Biology 2002 Conference New Orleans, LA April 21, 2002. The richest and best source of DHA is Cod Liver Oil. Our Premier Cod liver oil is unique in that it is the low molecular weight fats that are used so it has the highest concentration of vitamins A and D over other brands. It is also pharmaceutical grade making it totally free of mercury. It is also preserved with vitamin E so it does not oxidize and retains a high degree of palatability in my opinion. Be aware that taking vitamin A or D in there isolated state is unhealthy and maybe toxic. Taking vitamin D in the isolated state is typically derived from sheep's wool oil. A solvent is used to in the process of obtaining vitamin D from sheep's wool. This leads to toxic solvent residues as well as supplying vitamin D in an isolated state which is not good for the bones or body compared to having vitamins A and D together as it naturally occurs in Cod Liver Oil.

I've put together various product packages built around certain known illnesses in order to fully support and heal the organs or other parts of the body. This package is no different. Diamoxal alone is an amazing product and works just great. However it does not address certain biochemical needs of the body. Namely the pH, trace minerals and essential fatty acids and vitamin needs. So when you combine Diamaxol with the Sugar Burner, Nano-Cal and Cod Liver Oil and you will get a much stronger and quicker response and an overall improvement in health that Diamaxol cannot address by itself.

Nature's Answer to Diabetes Package:

[Diamaxol](#) (\$74.95) and [Nano-Cal](#) (\$49.00) along with [Sugar Burner](#) (\$32.00) and [Pharmaceutical Grade Cod Liver Oil](#) (\$14.95 for 8oz. liquid and \$15.95 for gel caps) at the regular price of \$161.32 with liquid Cod Liver and \$162.32 for the gel caps and get a an extra bottle of Diamaxol for FREE. That's a savings of \$84.53!!!

You can order online by clicking on the options below or Call 888-988-3325:

With your order you will receive Nutritional Educational Report that teaches you the foods to include or exclude to create optimum health

[Nature's Answer to Diabetes with Cod Liver Oil Liquid- Get on free bottle of Diamaxol Save \\$74.95](#)

[Nature's Answer to Diabetes with Cod Liver Oil Gel Capsules- Get one free bottle of Diamaxol Save \\$74.95](#)

[Or you can Buy 1 Bottle of Diamaxol™, 60ct. 30 Day Supply: \\$74.95](#)

[Or Buy 3 bottles of Diamaxol™ and get one bottle FREE \(4 bottles total\). Save \\$74.95.](#)

Recommended Use of Products in Nature's Answer to Diabetes Package:

Nano Cal - 1/8th teaspoon 2 times a day is a 60-day supply.

Cod Liver Oil – 4 caps is a 30 day supply or 8oz liquid at 1 tsp a day is a 48 day supply

Sugar Burner- 1/2tsp – 1 times per day 60 day supply.

Diamaxol - 1 cap 30 minutes before meals 2 times per day is a 30 days supply. For quicker results take 3 caps per day for the first 30 days.
